FROM: A Teacher Who Cares About the Future of All Students

No caring person would irreparably devastate the emotions and education of thousands of students and create unimaginable harm to the dedicated employees of the Rochester School District.

Yet, that is exactly what you, unconscionably, are going to do.

Making such devastating cuts at any time is destructive.

Making them in the middle of the school year is unconscionable.

In the interest of Rochester students, their families and your dedicated employees, please do not allow this devastating harm to occur.

You can make a difference in many lives by preventing these devastating and demoralizing cuts.
